Required Background Check Information

1. **FACIS:** The Fraud & Abuse Control Information System health care data repository reports on disciplinary actions and sanctions at all levels of government, including the Offices of Inspectors General, the Department of Justice, Medicaid Fraud Control Units, state health departments and other quality assurance agencies.
2. **Social Security Number (SSN) Check:** This search can determine the following crucial information, (a) whether the SSN is validly issued (b) to whom does the SSN belong (c) in which year and state the SSN was issued (d) the current and other known or previous addresses to that SSN. The SSN Verification process can reveal that the number belongs to another individual, has more than one name associated therewith, produces other aliases, including maiden and divorced names, is associated with fraud, is not a validly issued SSN, belongs to a deceased person, produces additional addresses not state by the application/request form, or has other SSN's associated with that individual.
3. **State Investigation:** Conduct a statewide record search for felony and misdemeanor convictions for all applicable state/county lived in for the past 7 years.
4. **Professional License/Certification Verification:** (If applicable) A primary site check of the State or National Licensing Board or Agency to verify a license type, number, status, original issue date and other available information.
